

Acteón Building. Valencia

Description

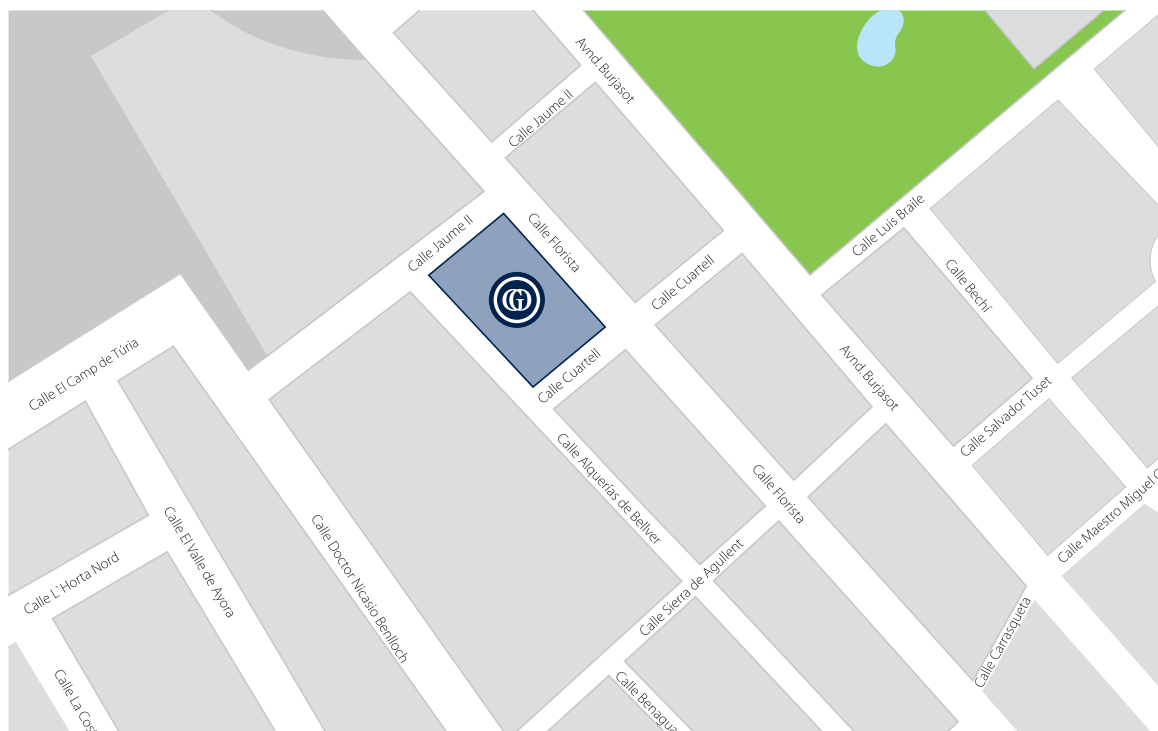

At calle Florista nº 157 in Benicalap, in the Valencia's Palacio de Congresos area, at a hundred metres from the Liria Motorway, we are currently building the Acteón building, a complex with 1, 2 and 3 bedroom homes with garage spaces and storage rooms, with a brick-faced façade and spacious view points, ideal for living in an expanding urban area with all conveniences close by, such as schools, medical centres, bus stops, and leisure and recreation areas.

Our project is designed to offer a variety of the types of homes currently being demanded by our

customers, at very reasonable prices and of the very best quality. We can highlight leading ceramic brand design tiling and flooring, high resistance laminated floating flooring, high quality mixer taps in the bathrooms, natural gas installation, video entry phones, and centralised hot and cold air conditioning is included.

Due to its cost, location and building quality, the Acteón building is a brilliant purchase option in one of the most emblematic neighbourhoods with a promising future in the city of Valencia.

Location

Acteón Building. Valencia

Const. materials

STRUCTURE: Earthquake resistant reinforced concrete.

FAÇADES: Water repellent heat and sound insulated cavity brickwork. Climalit type double glazing and aluminium shutters for selective light and ventilation control in the dining room and bedrooms.

PORCHES: Spacious and exclusively designed in which only materials of the very highest quality are used, with a high level finish.

STAIRS: With ventilation, lighting and emergency evacuation protection in keeping with the level of the complex. The construction aesthetics are finished off with spectacular balustrades. The steps and access landings to the homes are paved in marble.

LIFT: Latest generation incorporating the very latest technology and mechanisms. Very quick and silent with a spacious lift cabin with extraordinary manoeuvrability and safety.

GARAGE: Remote control door opening.

TILING AND PAVING: High resistance Pergo type laminated floating flooring. Highest quality large format gres in kitchens and bathrooms.

INTERIOR CARPENTRY: Very high quality. The front door to the home has armour plate with metal door frames and security lock and fittings. The inside doors are veneered in hardwood. The built-in wardrobes are internally lined and have a shelf and hanging bar. The doors are flat and veneered in hardwood.

EXTERIOR CARPENTRY: Aluminium and Climalit type double glazing, with shutters in the dining room and bedrooms.

COATINGS: The tiling is in design tiles. The walls are plaster screeded and finished with smooth paint. The ceilings are plaster screeded or plaster-board.

BATHROOMS: Roca brand or similar white sanitaryware. Highest quality mixer taps.

KITCHEN: Equipped with high and low current design high quality kitchen cabinets, with stainless steel appliances consisting of a decorative three-speed fan extractor hood, a self-cleaning electric oven, and a worktop with a four hob gas stove (vitro-ceramic in the homes with a pantry kitchen).

VARIOUS INSTALLATIONS: Both the plumbing and electricity installations have been designed with leading brand items and components. They fully comply with current official regulations and are fully guaranteed. Natural gas installations throughout, including consumption points in the galleries and kitchen, (except in the homes with a pantry kitchen). All homes have video entry phones, and a common telecommunications infrastructure for satellite and digital terrestrial television and radio, and telephone and cable television in the lounge, master bedroom and the kitchen.

ACCLIMATISATION: Complete installation of centralised hot and cold air conditioning is included.

NOTE: During the carrying out of the building works, the DEVELOPMENT COMPANY reserves the right to carry out any necessary modifications that may be arise due to technical, legal or commercial requirements, without this involving any prejudice whatsoever to the global quality level
